

Assembly Manual For FOMEX Softbox

Dear Valued Customer,

Thank you for choosing Fomex Softbox. It's designed to be accurate, ergonomic and simple to use.

Working closely with photographers to develop softboxes that meet the standards demanded in today's professional studios. Please take a few minutes to familiarize yourself with the manual in order to obtain the full benefit from your purchase.

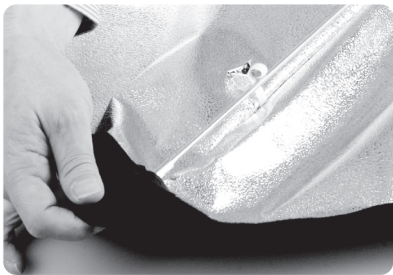

Thank you.

1

Insert the rod through the rubber loop in the middle of the softbox line.

2

Lead rod through the middle and push to Velcro-ends of the softbox

3

After all rods are installed, push the rod-ends into the adapter ring.

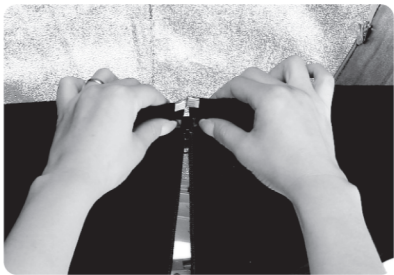

4

This is how it looks like after all rods are inserted.

Hold each side and pull them close together so you will be able to close the zipper.

Line up the zipper and close the zip completely.

7

Once your softbox is assembled, please connect it to your flash-head ensuring that it securely attached.

8

Inner diffuser is to be put on with clips inside the softbox.

9

Attach the outer diffuser into the Velcro of softbox.

Warning

Please be sure to hold both sides of the softbox when moving down the zipper to take apart. The rods are under a lot of tension.
